### **Widespread interest in Muscle Hill yearlings at Kentucky**

Most consignors say the strength of the Lexington Selected Yearling Sale, to be held at the Fasig-Tipton facility in Lexington, Kentucky from October 4 to 8, will be come from yearlings sired by Muscle Hill.

The catalogues features 54 lots - 33 colts and 21 fillies - by North America's No 1 trotting sire.

"**Muscle Hill** is head and shoulders above any other trotting stallion at this point, so I would expect them to sell off the charts" Diamond Creek's Adam Bowden said.

"Since Valley Victory, we've never seen the focus on one stallion the way it will be on **Muscle Hill**," Hunterton Farm's Steve Stewart said. "**Muscle Hill** has shown that he totally dominates and if you're trying to win the classic races, you're going to be one step ahead of everyone else if you've got a **Muscle Hill**. Maybe you don't have the right one, but you're ahead of the game. We haven't seen that in a long, long time, maybe ever."

"He's perhaps the hottest sire we've ever seen in our business and I'm happy we have a lot of **Muscle Hill's** in our consignment. You can never have too many of those this year that's for sure," Preferred Equine Marketing's David Reid said.

Joe Thomson, of Winbak Farm, who bred **Muscle Hill**, said: "He was an amazing horse when he was racing. He was really well gaited and it just seemed like he was all by himself. There's a great deal of pride to be able to breed a horse and have him do as well as he and some of the other horses have done."

**Muscle Hill** is popular in Europe, too, which should help drive that end of the market.

"The European contingent is very enthusiastic about him. They like **Muscle Hill**," Brittany Farms' Art Zubrod said.

Swedish horse agent Robert Lindstrom confirmed that **Muscle Hill** is very popular in Europe.

"There's only two stallions that anyone talks about (in Europe), Ready Cash and **Muscle Hill**," Lindstrom said. "Either of them, it's the sale topper anywhere you go. They are really nice horses. The bodies are fantastic and the engine is there to go very, very fast. They are not standing correct, many of them, in the lower parts, but anyway they are tremendous horses."
